### Now that you know how to tie a tie, here is a bit of useful wedding advice.

---

There is plenty of wedding advice out there but when it becomes the day to tie the knot a few things are good to have planned out and remembered. First a wedding is simply a promise that two people make before their friends and family. Take time to make that promise personal, what are you really promising? Take some time to discuss your vows with your bride to be. Then write them down twice, once to stick in your wedding album and once on a small piece of paper that you stick in your suit that you wear to the wedding.

The second piece of advice to remember is to lead a toast to your bride. This is your opportunity to sing her praises and let your guests and your new bride know what it is that you see in her.
